

# Intermid Javascript Developer

As a Intermid Javascript Developer, you will be contributing to FSB frontend development life cycle by:

## Responsibilities:

- Taking ownership of your assignments:
  - Analysing and designing with the help of your lead
  - Coding following FSB standards
  - Writing unit tests
  - Communicating using FSB's communication channels about progress
  - Ensuring good development, deployment and usage of deliverables on FSB's environments (QA, Staging, Preprod, Live)
- Helping other team members by code-reviewing their assignments
- Liaising with the key internal stakeholders and maintaining clear communication channels throughout the software development lifecycle

FSB having its dedicated first line support, part of your responsibilities is to be a support reference by providing a second line coverage.

## Requirements:

- Good understanding of Javascript and ES6, with at least 2 years of experience
- Educated to at least undergraduate level in technology or a related discipline
- Good verbal and written communication skills
- Experience of developing and maintaining web applications
- A committed and flexible approach to work
- HTML, CSS knowledge
- Debugging skills
- Experience writing unit testing (Jest)
- Understanding of OOP and design patterns
- Understanding of RESTful APIs
- GIT

### Desirable:

- ExtJS, Backbone, MarionetteJS knowledge
- Knowledge of SEO best practices
- 3rd party pixels, GTM, GA, FB

Your total hours of work will be 37.5 hours a week excluding 1 hour break daily worked between 08:30 to 17:00, Monday to Sunday based on a rotating shift pattern.

Please submit your resume via the FSB website:
