

Head of Billing and Finance Analysis

FSB was founded in 2007 by sports betting veterans who understood that consumer demand, live betting, smartphone penetration and evolving European gaming regulations would fundamentally change the operations behind a modern betting and gaming service. The founders of both Sportingbet and Betfair backed the business, and they've since become the industry's tech leader. Over the past decade, FSB have refined their technology and now offer the most customisable, efficient and reliable omnichannel sports betting platform – complete with tools that help you drive revenue, reduce operating costs and maximise marketing ROI.

Responsibilities:

- Ensure timely distribution of monthly invoices to clients.
- Organize and coordinate the Finance Analysis department to work closely with other departments to ensure that the best levels of services are always offered to our clients.
- Provide training to the Junior Finance Analysts and be responsible for the accuracy of the Finance Analysis team's data submissions to the Finance Manager.
- Support the Finance Manager with the day-to-day, month-end and year-end operations of the finance department.
- Perform financial analysis activities including but not limited to payment providers, casino providers and any other kind of ad-hoc reconciliations and analysis.
- Handling daily communications with clients, suppliers and payment providers.
- Analyse costs, pricing, variable contributions, sales results.
- Ensure quality control and analysis of financial transactions and reports.
- Improve processes and existing reporting tools within the department including overseeing the Robotic Process Automation maintenance.
- Maintain a documented system of accounting and analysis policies and procedures.
- Analyse all accounting records and ensure financial data is reliable and gives a true and fair view of the financial position.

Requirements:

- Experienced within the Betting/Online Gaming/ iGaming industry ideal but not required.
- High attention to detail essential.

- Ability to think critically and self-review.
- Able to work independently or as part of a team.
- Self-motivated, with a desire to succeed and develop professionally and personally.
- Ability to multi-task in a fast-paced environment and be a team player.
- Good experience within an analytical role working with spreadsheet-based financial models and templates, 4 years minimum.
- Educated to degree level, or equivalent, preferably in finance analysis/accounting.
- Proven knowledge of Microsoft Excel, at least of intermediate level.
- Strong analytical skillset with the ability to identify core issues and provide assessments grounded in compelling logic.
- Brilliant communication and interpersonal skills, with the ability to build relationships with non-financial audiences.
