

Retail Software Development Manager

UK (London / Remote) As Retail Software Development Manager you will be responsible for managing a team of highly experienced developers building complex SSBT/EPOS retail applications in C# / .NET.

Responsibilities:

- Delivering a range retail software projects on time and on budget
- Line managing, recruiting and coordinating resource, both onshore and offshore
- Helping to architect detailed technical solutions and coordinating complex interactions
- Communicating with key stakeholders across the business
- Supporting Business Development with enthusiasm and technical insight

Requirements:

- Solid understanding of desktop or EPOS application development
- An excellent understanding of RESTful APIs
- Good mathematical skills and a sound knowledge of distributed systems
- An appreciation of good UI/UX and a meticulous attention to detail
- A passion for software development best practices, including
- Managing source code repositories (GIT)
- Code reviews
- Continuous Integration / Delivery
- Automation Tests
- Security and regulatory considerations

FSB developers are working entirely remotely whilst lockdown measures remain in place. It is anticipated that staff will return to a central London office on a part-time basis later in 2021. Therefore, although there is no requirement to regularly commute into London, you will be expected to be able to join the team intermittently in person.

Please submit your resume via the FSB website:
