

Business Intelligence Analyst

Hours: Full Time, 37.5 hours

Contract: Permanent

Location: London/Remote (hybrid working)

About the company

FSB is one of the leading platform providers in the Sports Betting and iGaming sector. With an ever-increasing client base spanning across various countries and continents, you'll be joining us at an exciting time as our company grows and our journey accelerates rapidly in continuing to achieve great success. Will you be the next member of Team FSB? Develop your dream role and bet on us!

About the role:

As Business Intelligence Analyst, you will be responsible for helping to develop, maintain, monitor, and support our core reporting platform. This role will work together with our existing IT and development departments to help automate and streamline data processes. You will be responsible for assisting with internal and external data / reporting requirements, often liaising with stakeholders to ascertain their needs to provide a solution.

Responsibilities:

- Design, implementation and maintenance of database extracts and load processes (ETL) using Shell Scripting.
- Building of aggregate tables for common operations. Dimensional modelling
- Extracting data from PostgreSQL databases with good optimisation techniques to speed up query execution.
- Transforming client business requirement into optimal data solutions while adhering to best practice with high level of attention to details
- Developing Reports and data extracts per requirement
- Communicating with external and internal stakeholders via Salesforce & Jira
- Cross-functional collaboration to fulfil joint change request assignments.
- Create dashboard visualisation.

Requirements:

Essential (must have) – Technical knowledge, skills and experience

- 2+ years commercial experience as data analyst or equivalent
- Working knowledge in ETL development
- Good Understanding of PostgreSQL.
- Strong SQL skills with good optimisation techniques.

- Basic knowledge of Linux Shell / Bash Scripting
- Good understanding with MVM or other iOS architectures

Essential (must have) – Personal traits

- Willingness to be a team player and collaborator
- A committed and flexible approach to work
- Have a problem solving mindset
- Willingness to learn
- Desire to seek continuous improvement

Desirable (nice to have):

- Jasper Reporting Software
- Kafka
- Clickhouse
- Gaming Industry Experience
- Visualisation tools preferably Grafana, SeekTable

We would be keen to see if your talent matches our requirements. Please submit your interest via our website: <https://fsbtech.com/careers/>
