

# Front End Architect

**Hours:** Full Time, 37.5 hours

**Contract:** Permanent

**Location:** Hybrid - Central London / Remote (here's our [office](#))

## About the company

FSB is one of the leading platform providers in the Sports Betting and iGaming sector. With an ever-increasing client base spanning across various countries and continents, you'll be joining us at an exciting time as our company grows and our journey accelerates rapidly in continuing to achieve great success. Will you be the next member of Team FSB? **Develop your dream role and bet on us!**

## About the role:

FSB is looking for a talented Front End Architect to contribute to the development of the FSB platform. As a Front End Architect you will be responsible for improving or designing new architecture systems to support future and current sports betting applications.

## Responsibilities:

- Engaging with technology managers and leaders, business analysts and stakeholders to qualify the goals and needs of the business.
- Analysing and defining existing architecture systems.
- Designing scalable Javascript applications, from single page application multi page application to server-side rendering and web components.
- Troubleshooting multiple frontend solutions, client and server, by working closely with other developers.
- Reviewing other team members' code and acting as a consultant on technically challenging projects.
- Spreading knowledge about your work ; mostly, but not restricted to, via team bi-weekly presentations.
- Having a proactive approach to continuously improve FSB platform.
- Taking ownership of your assignments:
  - analysing and designing complex solutions to address requirements
  - coding following FSB standards but also promoting best practices
  - writing tests, ensuring that the FSB codebase is well covered across the teams.
  - communicating using FSB's communication channels (Jira, Discord and emails) about progress on your assignments
  - ensuring good deployment and usage of deliverables on FSB's environments (CI, UAT, QA, Staging, Live)
- Assist with any other reasonable tasks within the context of the role/team/department as specified by the line or authorised manager.

## Essential Requirements (must have):

### Experience

- Previous work experience as a software or Front End Architect ; ideally in a highly transactional SaaS environment
- Experience with Restful Web Services and WebSocket's

### Knowledge

- Expert level in front end technologies: Open Web Standards (HTML, CSS, JavaScript), Web Components
- Proficient with Javascript, React, Redux, Hooks, Node.js

### Skills

- Great communication skills
- Ability to solve complex software system issues

## Desirable Requirements (nice to have)

- Experience in the gambling industry
- Jenkins, Jenkins pipeline, CI/CD
- Docker, Kubernetes

We would be keen to see if your talent matches our requirements. Please submit your interest via our website: <https://fsbtech.com/careers/>
