

# Senior Frontend Developer

**Hours:** Full Time, 37.5 hours

**Contract:** Permanent

**Location:** Hybrid, Central London / Remote (here's our [office](#))

## About the company

FSB is one of the leading platform providers in the Sports Betting and iGaming sector. With an ever-increasing client base spanning across various countries and continents, you'll be joining us at an exciting time as our company grows and our journey accelerates rapidly in continuing to achieve great success. Will you be the next member of Team FSB? Develop your dream role and bet on us!

## About the role:

FSB is looking for a talented Senior Front End to contribute to the development of the FSB platform. FSB has a wide range of clients operating in the competitive online betting marketplace.

As a Front End Architect you will be responsible for improving or designing new architecture systems to support future and current sports betting applications.

## Responsibilities:

- Engaging with technology managers and leaders, business analysts and stakeholders to qualify the goals and needs of the business
- Writing clean code, help providing product assessments, reviewing and analysing existing products
- Provide technical assistance when required/requested
- Troubleshooting multiple frontend solutions, client and server, by working closely with other developers
- Reviewing other team members' code and acting as a consultant on technically challenging projects
- Spreading knowledge about your work ; mostly, but not restricted to, via team bi-weekly presentations
- Taking ownership of your assignments:
  - analysing and designing complex solutions to address requirements
  - coding following FSB standards but also promoting best practices
  - writing tests, ensuring that the FSB codebase is well covered across the teams.
  - communicating using FSB's communication channels (Jira, Discord and emails) about progress on your assignments
  - ensuring good deployment and usage of deliverables on FSB's environments (CI, UAT, QA, Staging, Live)

## Essential Requirements (must have):

### Knowledge

- Previous work experience as a Senior Front End developer , with at least 4 years of experience
- Expert level in front end technologies: Open Web Standards (HTML, CSS, JavaScript), Web Components
- Experience with Node js applications
- Solid understanding of OOP and design patterns
- Proficient with Javascript, React, Redux, Hooks,
- Experience with bundlers, webpack, grunt
- Experience with Restful web services and websockets
- Strong debugging skills
- Good communication skills

### Desirable Requirements (nice to have)

- Experience in the gambling industry
- SEO best practices
- Jenkins, Jenkins pipeline, CI/CD
- Docker, Kubernetes

We would be keen to see if your talent matches our requirements. Please submit your interest via our website: <https://fsbtech.com/careers/>

**Disclaimer:** Please note that FSB currently does not have a licence to sponsor anyone who does not have the right to work in the UK.
