

Data Engineer/Tester – Sportsbook

Hours: Full Time, 37.5 hours

Contract: Permanent

Location: Hybrid, Central London / Remote (here's our [office](#))

About the company

FSB is one of the leading platform providers in the Sports Betting and iGaming sector. With an ever-increasing client base spanning across various countries and continents, you'll be joining us at an exciting time as our company grows and our journey accelerates rapidly in continuing to achieve great success. Will you be the next member of Team FSB? Develop your dream role and bet on us!

About the role:

FSB is looking for a developer to help expand our sportsbook to new sports and markets. Our quant team is constantly producing new models to price sports, but we don't know whether they work. Your role will be to acquire data from external sources and FSB's systems. You will then work closely with other developers to systematically test, analyse and improve our sportsbook prices. You will gain experience of a wide variety of our models. There are opportunities for collaboration with traders, backend and project management to encourage innovation and ensure product effectiveness. You will be involved in the development of industry leading features such as bet builders.

Responsibilities:

- Creating and maintaining high quality datasets, and python interfaces
- Systematically testing FSB's prices against market prices
- Identifying, analysing, and explaining model inaccuracies.
- Effective communication and collaboration within the quant team.
- Effective discussion of requirements with internal partners, including traders, and other end users
- Assist with any other reasonable tasks within the context of the role/team/department as specified by the line or authorised manager

Essential Requirements (must have):

- Python (datascience)
- Experience managing data (or similar)
- Web scraping
- Automated testing (or transferrable skills)
- Some database experience (mainly mongo or similar)
- Excellent communication skills

Desirable Requirements (nice to have)

- Experience systematically testing models
- Experience with business python (as opposed to data science python)

- Java
- Sportsbook experience
- Statistics knowledge

We would be keen to see if your talent matches our requirements. Please submit your interest via our website: <https://fsbtech.com/careers/>

Disclaimer: Please note that FSB currently does not have a licence to sponsor anyone who does not have the right to work in the UK.
